MONOLITHIC AND FABRICATED GLASS

Monolithic glass is the building block to a world of architectural and aesthetic options. The uses of monolithic glass alone are limited. However, we take advantage of monolithic glass' versatility and offer advanced fabricating and machining techniques which open up a wide range of possibilities for decoration, filllings and construction. Fabricating brings out the full potential of monolithic glass.

Due to our state-of-the-art machinery and equipment, we've made fabricating an easy and efficient process that can accommodate your customized requests with a number of options to choose from. PRESS GLASS is your one-stop-shop to maximize the potential of monolithic glass with the highest quality of service. Our fabricated glass offer includes cutting, drilling and edgework for construction uses, while our spandrel and digital print options are ideal for aesthetic decorations.

PRESSGLASS

ALL-GLASS SYSTEMS

In addition to a myriad of fabricating options, our monolithic glass can also be utilized in our All Glass Systems. Heat treated single panes of glass and laminated glass are customized to your interior and exterior needs in an aesthetic and unobtrusive package that ensures safety, strength and quality.

GLASS FOR HANDRAIL SYSTEMS

Glass merges transparency and safety into one package. High quality monolithic and laminated glass hand rail systems enhance the beauty of a project while simultaneously reducing risk with strong and reliable glass panels. We make seamless and aesthetic protection for interior/exterior stairwells, balconies and open-air spaces.

ALL-GLASS ENTRANCE SYSTEMS

We offer complete all-glass entrance systems, which include single-pane sliding and swinging doors, sidelights and glass partitions. In addition to point-supported hardware, we provide the hardware for push/pulls, door railings, channels, closers and locking mechanisms.

SHOWER SYSTEMS

Press Glass provides aesthetically pleasing frameless shower systems that includes wall mount or glass-to-glass installations and frameless sliding shower systems. Our tempered glass can also be decorated with digital printing to add extra aesthetics. We also offer a Clearshield coating to be applied to help in the day-to-day maintenance of your shower glass.

STRUCTURAL SYSTEMS

Our laminated glass canopies and walls utilize point-supported hardware which ensures stability, protection and support for visual innovation and flexibility.

We constantly modify our manufacturing processes and change habits to limit the negative effect on the environment.

We kindly request that you minimize the negative effect of this leaflet on the environment. Please recycle the used leaflet, using the waste sorting method. Thanks to that, the materials can be used again.
