# MONOLITHIC AND FABRICATED GLASS

Monolithic glass is the building block to a world of architectural and aesthetic options. The uses of monolithic glass alone are limited. However, we take advantage of monolithic glass' versatility and offer advanced fabricating and machining techniques. This presents a wide range of possibilities for customized design, and construction. Fabrication brings out the full potential of monolithic glass.

With our state-of-the-art machinery and equipment, we've made fabricating an easy and efficient process that can accommodate your requests with a number of options to choose from. PRESS GLASS is your one-stop-shop to maximize the potential of monolithic glass with the highest quality of service. Our fabricated glass options include cutting, drilling, and edge-work for construction uses; while our spandrel and digital print options are ideal for aesthetic designs.

# ALL-GLASS SYSTEMS

In addition to a myriad of fabrication options, our monolithic glass can also be utilized in our All Glass Systems. Heat treated single panes of glass or laminated glass are customized for your interior and exterior needs in an aesthetic and unobtrusive package that ensures safety, strength, and quality.

## GLASS FOR HANDRAIL SYSTEMS

Glass merges transparency and safety into one package. High quality monolithic and laminated glass handrail systems enhance the beauty of a project while simultaneously reducing risk with strong and reliable glass panels. We make seamless and aesthetic protection for interior/exterior stairwells, balconies, and open-air spaces.

## ALL-GLASS ENTRANCE SYSTEMS

We offer complete all-glass entrance systems, which include sliding and swinging doors, sidelites, and glass partitions. These door systems can be provided with your choice of panic hardware, locking or non-locking pulls, closers, locks, and rails or channels for sidelites. All systems are produced in either monolithic or laminated glass with various hardware finish options.

## SHOWER SYSTEMS

Press Glass provides creative, frameless shower systems that include wall mounts or glass-to-glass installations and frameless sliding shower systems. Our tempered glass can be designed with digital printing to enhance the space or provide privacy. We also offer a Clearshield coating to help with day-to-day maintenance of your shower glass.

## STRUCTURAL SYSTEMS

Our laminated glass canopies and walls utilize point-supported hardware. This ensures stability, protection, and support for visual innovation and flexibility.
