CUSTOM SHOWER ENCLOSURE OPTIONS

FRAMELESS

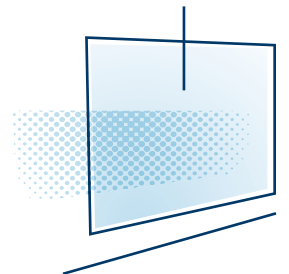

Shower enclosures with seamless corner connections and minimal hardware. Frameless showers offer uninterrupted light for the ultimate shower experience.

Unlike framed glass, tempered, frameless shower doors are strong and therefore do not need metal support to function. With no frame the glass truly becomes a focal point.

DIGITAL PRINT

The possibilities are endless with a customized shower to fit your style. Incorporate a privacy band or an aesthetically enhancing design by printing on the shower glass using ceramic ink.

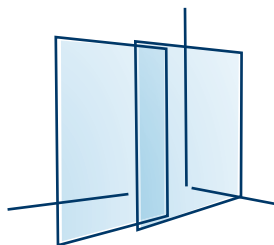

Scan to access our digital print configurator:

SLIDING DOOR

Maximize space and function with an upscale sliding shower door. Sliding shower doors consist of two or three glass panels that smoothly slide on a track. Sliding doors are ideal for showers with limited space and function well with tub-style showers.

ADDITIONAL SHOWER PRODUCT DETAILS

- Glass width and height options vary by product design.
- Custom shower enclosure design options are essentially limitless.

START DESIGNING YOUR DREAM CUSTOM SHOWER ENCLOSURE

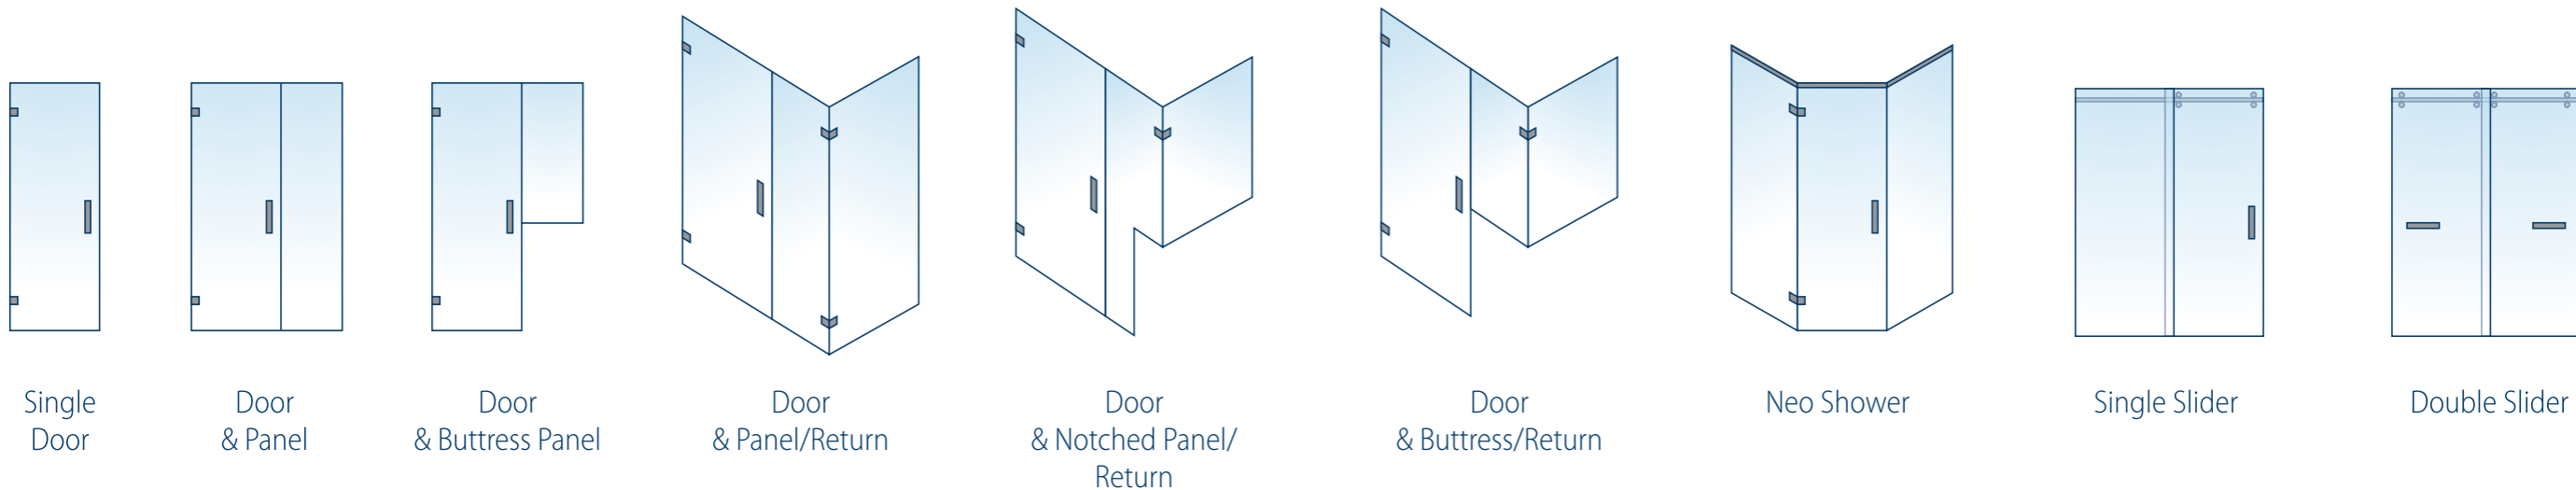

Custom shower enclosures go beyond sizing and design where a combination of hardware, polished edges, and surface treatments can come together to captivate the eyes of all who enter your space. Press Glass offers hardware in an array of finishes and styles from "U" channels, to hinges, to towel bars.

We also offer ClearShield® glass treatment to help with day-to-day glass maintenance. This resin treatment builds a chemical bond with the glass. In doing this, it creates an invisible layer of protection which lessens the cleaning requirements and gives the glass anti-microbial properties.

You deserve a sanctuary that is welcoming and eye catching, so contact Press Glass to start designing your dream custom shower enclosure.
